

Prologue

- who am I?
 - David Bolton, daveb@soi.city.ac.uk, A431
- what do you need?
 - Java programming
 - stamina
 - to ask questions
- rules?
 - no lateness: do *not* come in if I have started
 - no mobiles on (obviously) – including texting!
 - no talk, except to me

Materials

- Course text (essential): Andrew A. Appel, *Modern Compiler Implementation in Java*, Cambridge University Press, second edition
- <http://uk.cambridge.org/resources/052182060X/>
 - (care - I will issue modified versions of some of the stuff here; don't download anything yet [if you intended to])
- <http://www.city.ac.uk/cityspace>
 - CitySpace/WebCT will be continuously updated during the module
 - will be used for *all* communication about the module, and coursework handin
- I will hand out all slides, and a few notes to supplement the text
- lab sheets and occasional solutions, courseworks
